

# PRAISE WAND INSTRUCTIONS

The Praise Wands consist of plastic straws with four or five different colors of 12 inch-long ribbons, stapled inside.

To make:

Cut 5 brightly colored ribbons into 12" lengths. We recommend allowing kids to use a ruler to measure each string.

Staple the ribbons together at one end.

Then place the end with the staple into one end of the straw, and staple tightly.

Please make sure the ribbons are stapled tightly to the straw so that the children will not catch their fingers on the staple. Give the ribbon a tug to be sure it is stapled tightly and does not come out of the straw.

As each praise wand is finished, perhaps that person could praise the Lord for something in his/her life!
